

**AZTEG
GROUP**

Aztec Removes Hazardous Materials Safely & Professionally.

Aztec is an Abatement Industry leader, with the experience, commitment to safety, and qualifications to handle any project from small evening emergency cleanups to complex long-term projects. With office locations in Calgary & Edmonton, we have the resources to service Western Canada.

We remove all Hazardous Materials including:

- Asbestos
- Mould
- Lead
- Silica
- Biohazards
- PCB, ODS, Mercury

Additional Services we offer are:

- Demolition
- Flooring Removal
- Project Management
- Industrial Labour Services
- Renovation & Refit
- Hazardous Materials
- Commercial Manpower Services

Our Hazmat Department services clients in ALL sectors of Construction from:

- Commercial
- Industrial
- Government
- Insurance
- Institutional
- Health Facilities
- Educational
- Multi-Unit

Aztec's commitment to safety is unwavering. We pride ourselves in our consistent pursuit of customer satisfaction, quality, and ensuring the highest standards of safety are met on all our sites. With our staff HSE manager, in addition to ongoing site safety reviews, we continually audit, and improve our safety program. We invest in ongoing external and internal safety training for our abatement technicians and supervisors. We are members in:

- Avetta/PICS
- Contractor Check
- Complyworks
- Construction Safety Association
- Certificate of Recognition (COR)
- WCB Partnerships in reduction (PIR)

We understand it is important to adopt and integrate your internal organizations safety compliance programs and protocols as well. By utilizing our HSE manager and experienced team, we can adapt and easily adjust to requirements of your safety programs.
